Ayush Raj

Chennai, Tamil Nadu | +91-7909029177 | ayushraj5017@gmail.com
LinkedIn: linkedin.com/in/ayush-raj-3a1bb82b0/ | GitHub: github.com/ayushraj059

Education

SRM Institute of Science and Technology, Chennai
B.Tech in Computer Science and Engineering (Cybersecurity Specialization)
Graduation: May 2027
Relevant Coursework: Data Structures and Algorithms, Computer Networks, Operating Systems, Information Security, Python Programming, object-oriented design, complexity analysis

Experience

Community Connect – Volunteer Tech Assistant
Govt. Hospital, Katihar, Bihar | Jun 2025 – Jul 2025

- Assisted hospital staff in managing patient queues and organizing basic logistics
- Supported with patient care activities such as distributing meals and medicines

Hackathon Experience

Participant – Hackathon 9.0
Alexa Developers SRM | offline Round | 2025

- Demonstrated problem-solving and team collaboration under time constraints
- Secured a **Top 10 position** in *Hackathon 9.0* among numerous participating teams, showcasing strong problem-solving and teamwork.

COMPUTER SCIENCE AND ENGINEERING STUDENT
SRM Institute of Science and Technology | 2023–2027

1. Built a strong foundation in data structures, algorithm analysis, and problem-solving, with a focus on optimizing time complexity and writing efficient, scalable solutions
2. Participated in competitions on Codeforces, developing strong skills in writing optimized and efficient code

Projects

Movie Booking System
Developed a platform enabling users to log in, browse movies, select seats, and book tickets. Implemented secure authentication, real-time seat availability, and booking history tracking.

Traffic Management System: An Algorithmic Approach

Designed a smart traffic management system using DSA concepts like priority queues and graphs to automate signal control and congestion detection. Optimized route planning and reduced delays through real-time data processing and dynamic decision-making, improving overall traffic flow efficiency.

Achievements & Certifications

1. **Red Hat Certified System Administrator (RHCSA)** – *[2025/04]*
    a. Demonstrated skills in Linux system management, user controls, firewall setup, and SELinux policies
    b. Applied **Bash scripting** for automation, system logging, and security auditing
2. - 150+ LeetCode problems solved
3. Java NPTEL Certification

Technical Skills

Languages: Python, C++, Java, C
Databases: MySQL
Concepts: : Computer Networks , Operating Systems , Data Structures and Algorithms, Design and Analysis of Algorithms
Platforms: Linux , Leetcode ,CodeForces
